

You are invited to attend a workshop on...

# Focusing Our Vision Building a Network of Neighborhoods

....a public briefing to consider the future of Marin County.

Please join us to hear about a collaborative effort among regional agencies, local governments, and communities called *Focusing Our Vision*. The effort builds upon a Smart Growth Strategy/Regional Livability Footprint Project developed several years ago. The smart growth principles call for compact, city-centered growth and foster housing and transportation choices, promotes equity and efficiency, and protects the environment.

We now seek to meld regional and local objectives and bring a shared planning strategy for Marin and the Bay Area into sharper focus. A key component will be the development of negotiated priority development and resource protection areas to guide planning and implementation.

The public is welcome to participate and provide feedback on these issues, which will be incorporated into ABAG's housing needs allocation process and each jurisdiction's housing element determinations. Your input is vital to ensure Marin's needs are addressed.

---
